Le Fonti Awards & CEO Summit 2018: A World of Innovation

Promoting innovative excellence at world famous venues in international economic centers

“Innovation is the future, and we aim to give companies from around the world the opportunity to shine their stars and promote their innovative ideas”, declared **Le Fonti’s** President and CEO, **Guido Giommi**, “We believe that the more companies are recognized for their innovative culture, the greater the possibility that they will embrace the change which our society is headed towards.” The Awards ceremonies, organized and promoted by Le Fonti, the independent media & research company with over 15 years of experience, are now in their 8th year with 38 gala events organized worldwide, including Hong Kong, New York, London, Milan and Dubai. Over 500 companies have been recognized for innovation, sustainability, leadership, internationalization and education. Big corporations and local excellences alike have been distinguished for their successful achievements. One of the most innovative ideas proposed last year was from an Italian company whose goal was to help companies manage their businesses better with a more intelligent, long-term vision. “Change your business model, and don’t work for the warehouse anymore; produce just what you sell!”, said **Maurizio Porta**, CEO of **Porta Solutions**, awarded Excellence of the Year for Innovation and Leadership Flexible Production Italy. The company’s “Flexible Production Method” represents a production philosophy that helps companies to produce only what is sold, cutting down on stock and increasing cash flow. **Mobiweb** has been awarded as Excellence of the Year in the SMS messaging sector and **E-Global Trade & Finance Group** as Broker of the Year in the Forex Investment Business. Other important innovative companies include **ActivTrades**, Italy which was awarded Forex Broker of the Year and **Amicucci Formazione** for Excellence of the Year for Education in Italy. Innovation is at the heart of the real estate industry in the Middle East and the Le Fonti awards recipients made clear their objectives throughout the CEO Summit held in Dubai. “It’s not about working hard, but working smart. Learning to adapt and innovate...that’s what makes you stand out”, said **Dr. Hani Gharbawi**, a two-time winner who, with these words of wisdom, represented **Emaar–The Economic City**, awarded real estate development project for the Middle East along with **ZAS** and **SAK Real Estate**, all repeat winners. **Nashwa Al Ruwaini** of **Pyramedia** continued her undisputed reign as CEO of the year in Media & Entertainment Middle East for the fourth year in a row. Moreover, the Asian giants **HGC Global Communications**, formerly known as Hutchison, and **Towngas Telecommunications** were repeat winners in the TLC sector, while **Max O’Cisse**, CEO of **African Open Sky** was awarded outstanding
